

# Ultrasound Parameters

Why would it make a difference if you change them?

# Objectives:

- What are the parameters that can be adjusted?
- When would you adjust them
- How do you know if what you adjusted worked or not?
- Etc...

# Parameters

What is it?	When would you change it?

# Demonstration of Something!

- What is your rationale?

# Q & A

- Surveys
- Resources

- 
- Links to Websites that you used....

- 
- Thank your audience...
